

Biogaians Meeting 12/20/22

In attendance: Anita, Helen, Ka, Reuben, Miranda

Facilitator: Ka

Scribe: Anita

Main event: Spending the rest of the Biogaians 2022 budget!

Helen shows spreadsheets from the 2022 budget vs actual.
We still have about \$900 to spend in the Songaia Assn budget
We have overspent by \$35 in the G2T budget

Helen has created another spreadsheet for spending down the budget
Ideas: electric weed-eater, cut and grab blackberry tool, more invasive removal labor, more horse manure moving labor.

Is anyone interested in invasive removal for the rest of the year? Miranda is interested, but the weather might not make it possible.

We have enough left to fund horse manure labor (140), electric weed eater (250), goat feed/gas(50), and ivy removal (200).

Ka will order the electric weed eater.

Reach out to Ka for orientation on pulling yellow archangel.

Next meeting:

January 24th @7:15

Ka can check in with Patricia about assigning scribe/facilitator

Rotation list may need to be re-done

What could have been better: More people?

What went well: Miranda was here! Flexibility with Solstice event.
